

Landis Woods Nature Preschool

November 2025 Newsletter

This Month at School:

We have continued to do science experiments and explore the outdoors. We had our first group of parent volunteers join us in the classroom. We carved pumpkins and even made elephant toothpaste!

We have been working on our independence by getting ourselves ready to go out in the cold. The friendships we are building in class are blooming. Jumping in leaf piles and splashing in puddles has been super fun too!

In the Future:

We are going to continue practicing our letters and letter sounds. We are also going to continue to work on counting and numbers.

We are going to practice our fine motor skills with crafts and cutting practice. We will also keep investigating science with experiments!

Upcoming Events in the Park

Friday, December 12th: Owl Exploration

5:30pm-7:30pm
