

Landis Woods Nature Preschool Newsletter

“We don’t inherit the earth from our ancestors, we borrow it from our children.”

- Chief Seattle

We have been having a lot of fun at school! We were able to get in some awesome snow days filled with sledding, snow ball fights, frozen bubbles and snow man building. We have also had an incredible group of parent volunteers come in for some great crafts and stories. Lastly, we were able to look at quail, mink, owls, opossums, and so much more!

We are still working on our letters but are getting close to the finish line. We have been able to cover letters J-Q and have begun to talk about Q and his best friend U! We have continued to work on raising our hands, how to line up, and what clothes we need before we go out in the cold.

Having Fun

All of the classes love going out to our play areas! We were able to get in some sledding at the stage and garden area. We also found a giant mud pit in our leaf area. We have continued with our hands-on learning by building pizzas or just seeing what we can find when we dig. We are excited to see what spring brings and are eager to get planting in the garden!

In the Future...

We will work on finishing our alphabet. We are also going to start our subject centers and practice parents' names with the kids individually!
